Hi Dave,

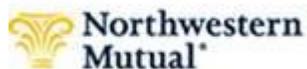

Here is the second, and last, message that I've received with the intention to share with the committee this evening.

Thank you, in advance for sharing these two with the full committee.

See you tonight.
Martha

Subject: RE: Wangard/Reinders Development

Dear Ms. Cappelletti,

Thank you for reaching out and sharing your ideas, expectations, passion, and concerns for the community.

From all that I have observed, heard, and studied over the last few months, the density of the development is the top concern. A second concern is the use and/or extent of the tax commitment (TIF) from the Village. And, there are a number of members of our community who believe the village is a family community and want the development to welcome young families with enhancements such as a playground.

We all agree that Elm Grove is a special place and one that continues to value listening to residents and being thoughtful in short- and long-term decisions. I'm grateful for you and many of our neighbors for coming forward for sharing their point of view. I will share your message with the committee members.

Martha

Subject: Wangard/Reinders Development

Dear Ms. Kendler,

I'm a 74 year old women who grew up in Milwaukee and Wauwatosa. As a child, one of my fondest memories was of my father driving us through Elm Grove and especially along the "Cave Road" on our way to the Blue Mound Drive-in on a Saturday night. The feel of the village was so different from the urban areas in which I grew up. I always knew that someday I wanted to live in this beautiful village. I finally got my wish 30 Years ago when my husband and I purchased a house at 1080 Lower Ridgeway.

We always knew that the area of Elm Grove Rd behind our property would be developed, but I was shocked to see the extent of the development that was being proposed. I believe the Wangard/Reinhart development is not compatible with the area that is being considered. Three story buildings would overwhelm that stretch of Elm Grove Road and wouldn't be similar in scale to the homes in the area. Over one hundred and seventy units could mean an additional population of three hundred forty plus or minus to our village.

Has the committee really considered the effect that this development would have on our infrastructure or are they being wooed by the thought of the increased tax base? How will this influx of residents and cars affect the police and fire department? It seems convenient that the studies of the increased traffic along Elm Grove Rd during the summer construction of the Watertown Plank Rd bridge were unable to be completed.

It appears that the Ad-Hoc committee isn't really aware of the thoughts and concerns of the people when the committee is concerned about the lack of a play area for the development rather than the size and density of this development and what such a large amount of rental units with a transient population would do to our village. Perhaps a much smaller development, heavily weighted towards condos, with rental units on the upper two stories of the mixed use building would be a better use of the site.

Thank you for letting me express my opinion and I hope it will be taken into consideration when deciding what would be best for the development of the Reinder's property.

Jane Cappelletti
